BRIEF COURSE DESCRIPTION

The World of the Hospitality Management has changed considerably over the last 3 decades due to major changes in leisure and vacation travel together with general increases in travel between different countries and regions. These changes have resulted in many companies altering their strategies and behavior.

“International Hospitality Management” will give the student the opportunity to learn how the biggest Hotel Chains have formulated their own strategies in a progressively more globalized world and adapted to new technology.

The course focuses on best practices and innovations of some the mayor hotel operators of the world. We will bring together the latest developments in global hospitality operations with contemporary management principles. We will develop a critical view of the management practices and the traditional theories, analyzing how appropriate they are to the hospitality and tourism industries in a multicultural context.

The course is designed to instill a greater awareness of the cultural factors influencing the strategies and performance of international hospitality organizations. It will focus on a critical analysis of the relevance and application of general management theory and practice to the hospitality industry.

ASSESSMENT SYSTEM

The assessment system measures the student's achievement of learning outcomes regarding the subject's competences and contents.

Students may choose continuous assessment or single assessment:

Continuous Assessment: the teaching-learning process is assessed by a continuous monitoring of the work done by the students throughout the course and a final individual examination. Students must attend classes in order to be assessed by continuous assessment.

Single Assessment: for those students who cannot come to class regularly, they can choose to be assessed by single assessment. The teaching-learning process is assessed by means of the assessment of all activities and in-person individual examination at the end of the course.

To qualify for this form of assessment, students must apply within the first 15 days of the start of the course through the assessment section of Virtual Campus.

The assessment activities planning will be public for the students from the start.

Activities	Type	Continuous	Single	Week deadline
Four Surprise Quizzes	Individual	40 %	0 %	Week 12.
Group Project	Group (continuous) Individual (single)	20 %	50 %	Week 14.
Individual Final Exam	Individual	40 %	50 %	Week 15
	TOTAL	100%	100%	

To pass the course, it is mandatory to have obtained a minimum final grade of "5", as long as the student has completed the individual exam/s or work/s established in the course. This exam/s or final work/s must be graded with a minimum of "4" in order to be able to calculate the average of all the assessment activities carried out during the course.

Revision and Reassessment of the Course

The student has the right to revise all the evidences that have been designed for the assessment of learning.

If a student fails to achieve the learning objectives of the course, in order to opt for the subject reassessment, it will be necessary to have obtained a final grade of the subject

between "4-4.9", and to have attended the individual final exam/s or final work/s of the course.

The reassessment process will only involve the modification of the final grade in the case that the new assessment activity is passed and, in any case, the maximum grade will be "5". This grade will be averaged with the other grades of the assessment activities carried out by the student during the corresponding academic period, considering the percentages established in each subject, setting the final grade for the course.
