Master in Hotel management and Hospitality

Code - Course	580016 – Master's dissertation		
Course year	1	Credits	15 ECST
Thematic Area	Master's dissertation	Course type	Compulsory
In-class hours	10 hours	Hours of individual work	365 hores

BRIEF COURSE DESCRIPTION

The dissertation provides students with the opportunity to apply the understanding, knowledge, analytical and conceptual tools and personal skills as well as the creativity and the ability to make decisions gained from the taught courses.

The dissertation is a research tool in the field of tourism. The author of the Master's dissertation must show the ability to identify situations (business opportunities, problems, etc.), search for reference sources, gather information and documentation and, finally, set out avenues to develop or improve the indicated situation, as well as meet the objectives and hypotheses raised.

BASIC SKILLS

BS6 – Students must have a thorough understanding knowledge that provides a base or opportunity for original development and / or application of ideas often in a research context.

BS7- Students should be able to apply the gained knowledge and their problem-solving skills to new or less known environments within a wider cross-disciplinary related framework.

BS8- Students should be able to integrate knowledge and meet the challenge posed by the complexity of formulating judgments based on information which, despite being incomplete or emulated, allows for the inclusion of reflections on the social and ethical responsibilities related to the application of their knowledge and judgment.

BS9- Students should be able to clearly and unambiguously communicate their conclusions as well as the knowledge and ultimate reasons supporting them to both specialized and non-specialized audiences.

BS10- Students should gain learning skills that allow them autonomous or self-directed lifelong learning.

SYLLABUS

Master in Hotel management and Hospitality

1. Introduction to Master's dissertation: typology, process, initial approach, practical aspects.
2. Introduction to research.
3. Information resources.
4. Formulating the research and its contents: objectives and hypothesis; theoretical framework and literature review.
5. Execution and closure of the investigation: methodology / work plan, results and conclusions.
6. Structure of the dissertation.
7. Dissertation defence.

LEARNING METHODOLOGY

The methodology of this subject consists in the elaboration of the dissertation (research proposal, theoretical framework, literature review, methodology, development of the project, results and conclusions).

The academic supervisor will monitor thoroughly the whole project and will advise the students during the process.

Theoretical and practical in-person classes will combine with the student's self-directed work in the dissertation in order to help the student to understand the bases of the research and the development of the project.

ASSESSMENT SYSTEM

The evaluation is the process of assessing the degree of achievement of the learning by the student in relation to the competencies of this subject. Due to the nature of this subject, the student can only choose to be evaluated continuously.

This consists of the assessment of the teaching-learning process based on the continuous monitoring during the course of the work carried out by the student and the learning that it incorporates, through the different evaluative evidence raised.
